Project

Website Application

TronmaticComputer E-Commerce Platform

Independently developed and deployed a computer hardware e-commerce platform for my final-year thesis using Laravel, React + Vite, PostgreSQL and Render, featuring role-based authentication, Google OAuth, order management, Khmer/English localization and an admin dashboard.

Internship

Web Developer Intern,

10 June 2026 – 10 September 2026

Completed a 3-month web developer internship building and deploying client websites using Laravel, Blade, Tailwind CSS and Alpine.js. Developed admin panels with a drag-and-drop block builder and multilingual content in Khmer, English and Chinese, implemented SEO and responsive layouts, and deployed sites on Hostinger via Git and SSH.

Skill

- Laravel, Blade, Tailwind CSS, Alpine.js (websites, admin panels, MVC, database)
- React + Vite, PostgreSQL, Google OAuth
- Git, SSH, Hostinger, Render (deployment)
- UX/UI (Figma, Prototype, website design)
- PS/AE (Editing, Poster Design, effect motion)
- Word/Powerpoint (typing, design slide)
